CURRICULUM VITAE

Name: Cliff Muriu
Email:cliffmuriu01@gmail.com

PROFILE SUMMARY

Ambitious and detail-oriented Statistics student with a strong foundation in statistical theory, data analysis, and applied research. Skilled in leveraging statistical software and modern data science tools to solve complex problems, interpret data, and communicate actionable insights. Experienced in remote data annotation, quality assurance testing, and freelance data analysis projects. Passionate about applying quantitative methods to industry challenges, with a proven ability to work independently and collaboratively in diverse environments.

EDUCATION

Bachelor of Science in Statistics - Kirinyaga university

KEY COURSEWORK INCLUDED:

- Probability and Decision Theory
- Regression Analysis and Time Series Modeling
- Statistical Computing (R, SPSS, Python)
- Hypothesis Testing and Estimation Theory
- Survey Design and Data Collection Methods
- Applied Multivariate Analysis
- Research Methodology and Academic Report Writing

KEY SKILLS

- Statistical & Analytical Skills: Data collection, cleaning, analysis, and interpretation
- Quantitative Methods: Regression, ANOVA, hypothesis testing, estimation, decision theory
- Programming & Tools: R, Python (pandas, NumPy, scikit-learn), SPSS, Excel (advanced functions, pivot tables, dashboards)
- Data Visualization: Matplotlib, Seaborn, ggplot2, Excel charts, interactive dashboards
- Machine Learning Basics: Classification, clustering, predictive modeling
- Quality Assurance & Testing: Bug severity classification, grammar-focused bug reporting, workflow optimization
- Digital Skills: VPN configuration, privacy protection, geo-location masking for remote work
- Soft Skills: Communication, teamwork, problem-solving, attention to detail, time management, adaptability

ONLINE COURSES & CERTIFICATIONS

- Data Science Fundamentals – Coursera
- Excel for Data Analysis – Udemy
- Introduction to Machine Learning – edX
- Data Visualization with Python – DataCamp
- Statistical Inference & Hypothesis Testing – Coursera
- Quality Assurance Testing Basics – uTest Academy
- Applied Regression Analysis – Coursera
- Introduction to SQL for Data Analysis – DataCamp

PROFESSIONAL EXPERIENCE

Remote Data Annotation & Testing Projects
Platforms: DataAnnotation, AI

- Annotated datasets for AI model training, ensuring accuracy and consistency
- Classified bug severity levels and reported grammar/functional issues in applications
- Conducted usability testing and provided structured feedback to improve workflows
- Applied statistical thinking to evaluate data quality and reporting standards
- Collaborated with global teams to meet deadlines and deliver high-quality outputs

Freelance Data Analysis Projects
Independent & Online Collaborations

- Conducted regression and hypothesis testing for academic and business datasets
- Built Excel dashboards for small businesses to track performance metrics
- Delivered statistical reports with actionable insights for decision-making
- Assisted students and professionals with statistical assignments and project analysis
- Applied machine learning techniques to small datasets for predictive insights

ACHIEVEMENTS

- Successfully completed multiple online projects with high client satisfaction ratings
- Developed strong expertise in statistical computing and modern data science tools
- Balanced academic excellence with practical industry-oriented skills
- -Recognized for accuracy and attention to detail in QA testing projects
- Built a reputation for clear communication and professional reporting
